Seminar Abstract

In this seminar Dr. Wallin will discuss the research presentation for your dissertation. He will provide guidance in organizing your materials, selecting topics for presentation, preparing slides/illustrations, and handling questions.

Bring with you to the seminar a concise statement of your conclusions/findings from the research project you have undertaken and a precise definition of the research aims you have tried to pursue. These will be critical in the development of your presentation. After the seminar, Dr. Wallin will be available (that evening, and in the days thereafter) for individual meetings to provide help in organizing your research presentation.

*Starting from January 2006, the MATPP seminars will also be opened to members of the Chartered Institute of Transport and Logistics in Hong Kong (CILTHK) as continual professional development (CPD) activities. Registration for the seminar is required for all non-MATPP students. For enquiries and registration, please contact CILT directly.
