

*Transport Policy and Planning  
Scholarship Awardee*

 · 2009-2010 · 

*Ng Chiu Kit*

(full-time)

It was truly an honour to be one of the first recipients of the Transport Policy and Planning Scholarship in 2009/2010. I was grateful for the opportunity given by the University to study in MATPP as this programme has made a difference in my career development in transport. With a strong teaching unit comprising of leading academics and professionals in the field of transport, this programme provides to students with a multi-dimensional view and unique understanding on transport development in Hong Kong. In addition, this programme offers a tremendous opportunity for us to meet and learn from peers and experts from the various disciplines in the transport industry. For fellow new MATPP students, be prepared to work hard and enjoy the rewarding learning experience offered by this programme!
